Submission:

My name is Sam Pollicina.

I reside at [REDACTED]. I have lived at this address with my family since 2002. At first, I was not happy to move to this area as it was too far from where I grew up in the Parramatta area because I bought a trucking business at the time I was not allowed to park my truck on the street since it is illegal. We moved to Kemps Creek even though it was further away for me to travel to the area where I worked.

My property at Kemps Creek was very badly run down so we had to spend a lot of money and time to bring it up to what it is today. On my property, there is another house that we spent a lot of money and time to restore and now we have tenants living there. When we purchased this land it was 1 in 100 flood zone we did not mind that at the time. A few years later we discovered our property was changed to 1 in 20 flood zone. We weren't notified about this change which devalued our land.

After living here for 16 years we now love and enjoy living here.

We know that the airport is to be built in this area and we welcome the new airport we think its good for the area.

Due to the airport coming in we were told and shown plans that our property would become future light industrial. We now have been shown different plans that state we are in the non-urban future zoning which means we are not light industrial anymore.

We have no issue selling our property for the future airport however, our main concern is that we get compensated fairly. This means we get the same amount as everyone in the area that is not in the non-urban area. Since I won't have enough money to move to a suburb with acres close to my family due to my work and lifestyle and the care that I give to my mother [REDACTED]

These changes have caused me a lot of stress and have made me very anxious about the future for myself and my family.

Yours sincerely,

Sam Pollicina [REDACTED]
