Submission:

My name is Tim Stepanov and I live at [REDACTED] Bringelly.

Our lives have been overwhelmingly taken over by the future plans for the Winamatta-South Creek spine for the Aerotropolis Core.

I DO NOT agree with the proposal of the SCP and DO NOT agree on rezoning the land Environmental/Recreational and leaving it under private ownership. If you need Environmental/Recreational land then BUY IT first. And start firstly with the land in the Aerotropolis core. Sort that area out....then attend to the rest. So if you do need to zone certain areas you can then afford to purchase the required land. So again, we will not accept any E-Zonings and if the government needs open spaces then purchase it so we can move on with our lives.

All of this has caused me and my family severe anxiety and stress since these plans came to life. No one deserves to live like this.

We need to know that the government will be fair with their zonings and buy the land so be treated equally and fairly.

I have watched my parents stress over all of this...this was to be a place where we could live peacefully. But if we are required to move then why make it hard for us and why make it that we are penalised for owning our block. You the government should be helping everyone in the area. I do not agree to the proposal of the South Creek Precinct I do not agree on rezoning land Environmental/recreational and leaving it under private ownership to achieve more greenspace at the expense of the land owners and No expense to the government.

I do not agree with the outdated flood study being used for this proposal.

Rossmore Grange should be used first for Greenspace before any other. I oppose any type of E-Zone as there is very little Environmental significance in the area.
