Submission: Don't make the airport 24/7. People deserve the right to sleep at night and many people are light sleepers. You can hear flights taking off and landing for miles around an airport and it's so loud that you can't be heard shouting. No amount of careful planning will take that noise away so how about zero flights between 10pm and 6am. Instead of 24/7 how about 16/7.
