Suburb/Town & Postcode: Cherrybrook 2126

Submission file: [webform_submission:values:submission_file]

Submission: Just one thing: I saw the ANEC contours representing significant noise pollution from flights. This doesn't cover the broader flight paths up to 30km out that negatively affects light sleepers. I know this since Cherrybrook suffers from low level pollution via Kingsford Smith's North-South runway. When can the project clarify the planned paths for the new airport? Thanks. Cheers, P.
