Submission: Dear Sir/madam, I am writing to you with concerns about a proposed road shown on a map in the Western Sydney Aerotropolis Plan, Page 82 item 7.5.4 Rossmore Precinct Liverpool LGA. This road is apparently, indicative, according to the Transport for NSW office, but is still a big concern for me and a lot of my neighbours along Devonshire Road, as we have lived and worked hard on the land in this area for a very long time and it is our livelihoods. I have only recently found out about this proposed road and other issues through another person in the Rossmore area in the last couple of weeks, as I was not sent any information and did not know about any meetings that were held with the community. The road shown from the intersection of Tenth Avenue and Devonshire Road through a number of properties (including mine) and linking up with North Avenue affects a lot of livelihoods and a lot of farming land, not to mention the amount of traffic, noise and pollution that would come with it. The intersection at Tenth Avenue and Devonshire Road is already a dangerous intersection as it is, without adding more traffic to it, as it comes down a hill leading up to Tenth Avenue and then kicks sharply around to the right as you go through the intersection heading South along Devonshire Road making it a future black spot I think. Reconsideration on the location of this road when it is planned, where it

does not affect peoples livelihoods and follows an existing part of the road would be greatly appreciated, thank you. Kind Regards, Francis Stellino
