Submission: I wish to write this submission on behalf of my family. we are a young family with two young children. Our life has been based on acreage living which we are now finding will be interrupted by the government deciding to acquire our land only at market value. This has been quite heartbreaking and stressful for us at this time as we are unsure of our future plans, unsure of schools that our children will be able to attend and basically unsure of our entire future. We are immensely scared of relocating to different premises as we require acreage and there is not much available on the market. The intense pressures of packing, moving and relocating are immense. We also feel that we are not being fairly mapped as we are directly in the acropolis core. the map shows our land as being one in 100 flood whereas our property previously was in the yellow Aerotropolis acquires section. We have been unfairly treated. We demand that we be compensated for our land and inconvenience of relocating. Thankyou
