Submission: My name is Marc and I have resided here in Overett Ave since 1996, [REDACTED] [REDACTED]. We initially purchased in this area as it is central to our family members. We enjoy the peace and tranquility it offered as we spent vast amounts of time outside gardening, swimming in our pool and playing with the kids and our dog. As the projected noise levels are expected to be 25 - 35 ANEC, we expect that our time outside will be limited and our current way of life will change dramatically. Road traffic has increased dramatically due to the extra trucks required for the airport project, making locals play Russian roulette trying to get onto Elizabeth Dr during and around peak hour times, with this comes increased noise and frustration. This plus the addition of aircraft noise will end our peaceful life here. Having our property placed in the proposed green zone has caused us great anxiety as I, being a builder, built our house as we were planning on living here for a very long time, now our beloved home will be demolished to make way for a park in a noise zone. I am disappointed with the lack of information and changing time-lines and being kept in the dark about our area. Being placed in the green zone has devalued our property and sales in the local area are very much stagnant. We are unable to sell, therefore we are also unable to move, no one wants to buy a home that will in 3-6 years become a park. I believe as there is already a manufacturing business zoned in this area this would be the better option for our area. I believe the zoning should be changed from environmental to employment. Or acquire all land in the green zone before the opening of the first runway in 2026.
