Submission: The South Creek corridor runs behind the property I have lived in for 10+ years. There is uncertainty about what the Department wants to do with our property ([REDACTED]). No information is forthcoming about acquisition or Environmental zoning. We have met the Department at one on one meetings and no further information was forthcoming. The complete lack of transparency is disgusting. If the intent is to rezone to Environmental, it would be much better to acquire the land as you did in Thompsons Creek. I am a pensioner and this is my retirement property.
