Submission: To Whom It may concern, RE: Prioritise Precinct planning to include the Dwyer Road Precinct also known as the Southern Gateway Precinct My name is Debra Pemberton and I am the property owner of [REDACTED] [REDACTED] Bringelly. [REDACTED]) We have been formally advised by the Planning Partnership that this area will not be rezoned before the Airport is fully operational. This leave my family and our community facing an uncertain future for perhaps the next 10-30 years. As a result, this will expose myself and my family to the negative effects of long term infrastructure developments within the Aerotropolis, in addition to the harmful effects of living within 3km of an operational 24/7 Airport that has no Curfew. At present we are already suffering and forced to endure the negative effects of infrastructure developments in our area such as:- Road infrastructure works creating noise/air pollution, traffic A main urgent effect is the dust pollution falling and settling on our roof and while we only have tank water this has become a major contamination problem resulting in additional cost to filter water for it to be fit for human consumption. Uncertain future for those of us long term residents who are retired and looking to sell and move, with no priority zoning this has caused a lot of worry and stress for our long term health and financial future. The increasing land value is a further concern resulting in high council rates, and forcing us to absorb this addition costs with no prospect of being able to sell in the near future, until the zoning issue has been resolved. The lack of planning and foresight for the Dwyer Road Precinct is inexcusable and appalling. As a resident within the Dwyer Road Precinct, I am requesting immediate and urgent attention be given to the prioritisation of zoning our properties, so that my family and those within the Dwyer Road Precinct are given a fair and reasonable opportunity to get on with our life and future and not be disadvantaged before the operations of a 24 hour Airport commences.
