Submission: I have lived in Kelvin Park Drive for [Redacted]. The future plans for the Winamatta-South Creek spine for the Aerotropolis Core have caused a lot of stress in our family. I DO NOT agree with the proposal of the SCP and DO NOT agree on rezoning the land Environmental/Recreational and leaving it under private ownership. If you need Environmental/Recreational land then buy it. BUY IT first. Rezoning land at the back of our properties from RU4 to Environmental/Recreational affects our existing uses, impacting its value. So again, we will not accept any E-Zonings and if the government needs open spaces then purchase it. We need to know that the government will be fair with their zonings and buy the land so be treated equally and fairly. I do not agree on rezoning land Environmental/recreational and leaving it under private ownership to achieve more green space at the expense of the land owners and No expense to the government. I do not agree with the outdated flood study being used for this proposal. Rossmore Grange should be used first for Green space before any other. I oppose any type of E-Zone as there is very little Environmental significance in the area.
