Submission: I would like to see the modelling for demand and supply of people working in and around the WCAA precincts such that we can look at the Mulgoa Valley with Penrith City Council and determine if the Rural Lifestyle is still able to be maintained within close proximity to the new airport and infrastructure. The much higher housing density at Glenmore Park will be a natural feeder of workforce which also aligns with the concept of the 30minute city as well as the OSO and Rail Links planned to service the WSAA Aerotropolis and Science Park employment hubs.

Regards Dan Armstrong
