After discussion with the Dept Aerotropolis Activation Team today and receiving clarification that our property is half in the South Creek Precinct and half in the Aerotropolis Flexible Employment area we would respectively like to submit a request that we may be considered for the entirety of our property be included in the Aerotropolis flexible employment area.

Our reasoning behind this is [REDACTED] to allow for a new 4 way intersection with lights at [REDACTED] and [REDACTED]. The construction of the intersection is currently underway & on our eastern side of our property (opp side to Jersey road at the lights) approx 100 metres in from [REDACTED] a turn bay is being constructed and it is our understanding this will be for future extension. (refer to the rms - The [REDACTED] and [REDACTED] Upgrades stage 2 July 2017 for site photograph)

The turn bay presently under construction and its future extension would separate us from other properties on our eastern side, along [REDACTED], and will place us to one corner of the intersection.

Therefore we will have an intersection & future road extension between us and approx half a kilometre distance between us and South Creek.

Based on the excellent accessibility due to upgraded road works and new services already underway outside and around our property and being within walking distance from future rail stations and increased bus services, we feel our property would be better utilised in its entirety within the Aerotropolis Flexible Employment Area.
Thank you
