This airport is in the wrong place. It should not be in the Sydney Basin due to the pollution not disemminating during the day unlike KSA on the coast. The EIS states that people will die as a result of this. It is not acceptable. The site could be used for jobs and housing ie business parks, education and health. HSR could be built to access Newcastle or Canberra airport. This no curfew airport will make western Sydney unliveable due to noise and pollution. it is already a heat sink with temperatures last summer of 46 degress.
