Content:

I am writing this submission to register my total objection to the Badgery's Creek Airport (BCA) Proposal.
My reasons are as follows:

- *. The Western Sydney Basin is an unsafe region to build an Airport of any size, due to being in close proximity to Warragamba Dam, Sydney's major water supply.
- *. Aviation take-off and landing procedures are safer over water, rather than the land.
- *. Pollution levels from aviation are a proven health risk.
- *. Aircraft noise over suburban areas is yet another health risk, particularly in the NO CURFEW mentality,
