DID NOT PUT MY NAME OR PRIVATE ADDRESS AS I DO NOT WANT THEM DISPLAYED.

I oppose the South Creek Precinct current design/area. It needs to go back to the drawing board and have a re- think of better alternatives that do not disadvantage private land owners with E zoning and or acquisitions- totally unacceptable.

The Department needs to find solutions that do not disadvantage private land owners for the betterment of others.

Flood land % has been increased - needs to be decreased in accordance with Local Councils and better solutions.

Maybe a solution is if a dam can be build on Government owned land within the area, to capture the increase water/storm water flow and help out farmers who need the water.

Also the size of the proposed area would be hard to maintain and could pose an increased risk of fire threat to homes and businesses being developed, as the area out west is very hot and very dry most of the year and if you are planning parks people will bring BBQ's etc. Needs to have better planning
