This response is in relation to the rezoning of my father's land at [REDACTED]. He lives on 6.5 hectares which is to the north/west of the airport boundary. My father's concern is the rezoning of his land to a NON-URBAN zoning which will prevent any type of infrastructure being built on his land and being so close to the airport. His property lies between [REDACTED]. Yes. We need to maintain those creek lines but not the land between them. He is adjacent to the previous [REDACTED] which was bought by the [REDACTED] for about \$3 million dollars which they have on-sold to Chinese investors for about \$500 million dollars. This company will ultimately make multi million dollars from any development, but because my father lives on a small parcel of land, Planning and Environment have decided to land lock his land which will be worthless. This is not looking after our local residents but allowing overseas investors to rake in multi million dollars. Please do not change his property to NON-URBAN.
