Dear Commissioner

I have reviewed your Stage 1 plan.

I am concerned about the noise levels around the Badgerys Creek Airport. I do not understand why would it will take several years for the flight paths to be decided and finalised.

You have chosen areas for urban development in the aerotropolis and no one knows how the noise levels will affect them being so close to the Badgerys Creek Airport. I believe people will not commit to buying if they don't know how they will be affected.

Also all the landowners living around the airport do not know how this will affect them. This keeps them all in limbo for years. This will reduce the housing demand for residential development in the Stage 1 Plan .

We need this resolved and finalised. This should be of high priority before development starts at the Badgerys Creek Airport. Developers can then plan wisely and choose the best location for development around the airport which will not be affected by high noise levels. We need to plan around the airport and select the right business & tourist facilities around the airport. We cannot do this because we don't have the final EIS and flight path for the Badgerys Creek Airport.

Thank you
