Western Sydney Aerotropolis

I am writing to you as one of many concerned and broken residents living in the new Western Sydney Aerotropolis - South Creek Precinct. This new precinct has made our land worthless and has destroyed the lives of hundreds of people.

The South Creek Precinct does not follow the 1:100 year flood plain. As it stands you are taking perfectly good non-flood prone land and turning it into open space. At the expense of landowners who will suffer great financial loss as a result. The South Creek Precinct should be reduced to follow the original 1:100 flood plain exactly.

There has been no regard to the Probity principles of fairness and transparency during this planning process by the NSW Government. The statutory authority that will be created with powers to amalgamate land in this precinct should also be given powers to set a fair compensation amount for all residents in the Aerotropolis equally. As it stands one land owner can receive a massive financial windfall due to favourable rezoning and their neighbour could be compensated only a fraction of the amount.

We need your help there has to be a fairer way, for all involved. This is my parents retirement we are talking about, what they have worked tirelessly for and for it to be taken! Its just not fair! We are looking at being zoned "non urban land". What will that mean for us? Something has to be done about this!!!

Look forward to your reply!
