Content:

We wish to protest in the extreme about rezoning our property. Liverpool Council has forgotten us for years. (We are on the outer boundary). We have been out here for 38yrs now that the progress is coming some of the people in the know want to change the rules. We deserve to be able to sell at the same ratable rule that we have been paying for the last 38yrs and not a dairy only price. There are 40 to 50 houses in [REDACTED] all rural residential there are no farm animals now because of the drought. So it is basically residential . Try rezoning Liverpool CBD to Agriculture / Dairying . Good luck with that.
