I'm a resident from Kelvin Park where our property has been placed in the South Creek Precinct.

The proposed new rezoning of our land from RU4 to Non-urban, environmental or infrastructure will devalue our property drastically.

We purchased our property over 10 years ago at a high price. We wanted a rural lifestyle and hoped to live there for the rest of our lives. We are hardworking Australians, born in this country who pay taxes and land rates and are still paying them. We put our children through school.

We have tried to live and survive on our own means and have never asked the government for any hand outs. We are paying our own way through life and our home is our superannuation and retirement so that we are not a burden to the government.

If we are re-zoned, we will lose everything. My husband and I will have nothing, our property is our investment for the future.

We do not object to the new airport but object to the proposed re-zoning of our area, our home and land.

We need to be treated fairly and with dignity, as the government is advertising on how beneficial this development would be to all land holders and for us to find out that it is only for some.

We all pay land rates and with the flick of a pen you will change the zoning of our properties, rendering our properties in the South Creek precinct relatively worthless in comparison to the properties across the road in the Aerotropolis Core.

We should be fairly compensated with equal value of other land owners which are in the aerotropolis core zoning which is across the road from our property.

We envisage that if we have to sell our property for a fair amount of money so that our blood, sweat and tears was not for nothing.

If we had to leave because of this proposed new re-zoning, we MUST be compensated so that we could obtain the same improvements and dwellings, mirroring our current property now.

The government can not just turn people's lives, future and financial positions upside down.

Please explain why the land owners in the prime position of the aerotropolis core are being punished and their

livelihoods taken away from them.

The ministers, Mr Anthony Roberts, Sydney Commission, Mrs Turnbull and the people from Infrastructure NSW, who drew up these plans and who will have the last say, need to be accountable for what they are doing to us. Our future is our stake, we do matter!!

We need answers! In one meeting, you have emotionally, mentally, financially, and taken away our long term security - stopped us from developing our land, ruined our retirement plans! You have made us useless, stagnant beings and we have no rights to live until you tell us what we can do.

I would appreciate your attention to this extremely important matter as this is a very real life changing problem which we never ever expected from our government.

Thankyou for your time and looking forward to hearing from you with a positive outcome to our property.
