SOUTH CREEK PRECINCT.

I wish to strongly oppose the size of the area (1,950 hectares) proposed for the South Creek Precinct based on an outdated PMF plan that has not been credited with any actual field testing.

Take the flood line back to the 1:100 flood risk plan in accordance with Liverpool City Council & follow the Creek line - & you will have the support of 85-90% of the affected private land owners within the proposed South Creek Precinct. No Private Land owner will accept it as it is. Common sense and compromise/negotiation is achievable here. No devaluation of land either, through sneaky planning E zones etc not legal.
