I live at the above address and have been so for the past 18 years. I have previously been informed by the government and the maps were mailed out to us informing us that the area we live in has been gazetted for light industrial use which I always believed would be the case as my property backs on to roller duct who are a well established business now and by chance only we have found out that the government are proposing to rezone this area as non urban which is a shock if it affects you without carrying on too much we obviously consider this grossly unfair and would prefer if the zoning would proceed under the 2010 maps as proposed then thank you
