Content:

I am objecting to the Western Sydney Aerotropolis Land Use and Infrastructure Implementation plan in regards to Rezoning of our property from Rural Small Holdings to None Urban. To change our zoning will cause a lot of problems as we have been residences since 1972 (46 years) My wife and myself are aged pensioners but my two sons carry out there Plant Hire business from our property We also have horse stables and spelling yards. If our house and land is to be acquired to be sold our reclaimed by the government a lot of inconvenience and costs would occur due to the inconvenience of having to relocate to another site also financial hardship with the loss of trade and business My wife and myself are suffering a lot of stress of having to move from our house and land .Over the years we have worked hard and was hoping that our property would be our retirement fund and be able to share the funds with our boys . We have just recently spent \$30,000 on renovations on the house but if we had known about the rezoning we would not have carried out the updating of our house.
