To whom it may concern,

My name is Leo Georges and I am a 14 year old student, who is currently residing in [REDACTED] Rossmore. Recently it has come to my attention that we must move for the new airport. My father has been working for 80 hours a week for this dream, to the point that he has serious back pain, a very rare disease called Pemphigus Vulgaris, and multiple health issues however, through all this he has never stopped working for his family, and he has always paid his taxes on time. We do understand a new airport is required due to the growth of Sydney. We have moved here into [REDACTED] 2 years ago, as it was always a life long dream to move into an acreage. Now because of what you guys are doing, our land is being devalued. My parents have worked so hard to get to where we are on our acreage, and all of a sudden it is being taken away from us. My parents seem to be very stressed, and now we can't do anything about it because the price has dropped. My dad can't sleep and his health is getting much worse. His condition Pemphigus Vulgaris which he already suffering from has become much worse as well. Nobody deserves to live like this. His health issues are getting worse due to your actions. Stress intensifies Pemphigus Vulgaris and makes the condition much worse, and makes it much harder to control.

If you guys are taking our land and life away, please treat us fairly and equally, and compensate us so that we can live a comfortable life, and my parents won't have to start over again after working so long to make this life long dream a reality. This is the only property we have, if this is taken away from us and the price drops we will have nothing. If this keeps going, we won't be able to afford another house to live in.

Sincerely
Leo Georges
