â€¢ To whom it may concern

â€¢ My name is Steve Georges resident of [REDACTED] Rossmore 2557 recently myself and my family been going through difficult and stressful times due to the devalued my property that i worked hard for last 20 years doing nearly 70 hours per week which caused by the changes that state government is putting in place in regards the surrounding suburbs the budgrys creek new airport and aerotropoles core .i'v been diagnosed with rare diseases known as pemphigus vulgaris as well known autoimmune disorder for last 12 months yet the medical people don't know the reasons of that disease but they aware that stress can make the condition get allots worse which this what's happening currently. This is my current situation and health condition now due to the planning ministerial action in my area causing the devaluation of property that i worked most of my life for.think for the moment and put yourself in my shoes and tell me how would you feel especially when you have 3 kids age of 7/12/14 and uncertainty health condition due to my pemphigus vulgaris . Iam not oppose the new airport i understand that our city need upgrades due to growing population . All am asking is to be treated fairly and considering My family future and be compensated fairly so i would be able to move on take my family elsewhere without having big mortgage as my health condition not allowed work as before .

â€¢ Kind regards

â€¢ Steve Georges
