Content:

I bought my property about 40 years ago with my wife raising 4 children all going to local schools and playing local sports including horse riding ,all now have generated 13 grandchildren for us . Our home is for all family activity , everyone coming together for birthdays ,Christmas all occasions , this place will be missed dearly by all . We do know land will be needed and acquired for this massive project that is being built ,but how does Government compensate for anxiety, stress, Sleepless nights. All residents in this situation need to be fully compensated for their land. Value sharing should discussed and implemented so all effects of re-zoning is fair on all concerned.

My wife and I have worked all of our life ,paying taxes and our home is our retirement to enjoy for the rest of our lives and to pass on to our family . We need to repurchase a new home and be happy if we have to cell.

Regards Owner
