The farm "it was my home for 13 years, until I got married and built a home of my own" however, I honestly have never left. My Husband, my two children (5 years Emma and Ryan 2 years) and myself spend every weekend back here on the farm and we have done so for the last 8 years.

We have had many a pool parties with friends and family, some unforgettable 21st and 30th birthday parties that have gone down in the history of parties amongst friends and family, and the memories that we have made on the farm are priceless. My Mum and Dad have always said that their home "is always open" to friends and family.

This is the farm and I was under the impression that my Mum and Dad would be living here forever.

I have spent the last few months listening to my Mum and Dad explain to me about what is happening with their land.

I have watched them stress and become upset about the fact that soon they will have to uproot their entire lives and move somewhere different. Where to? We don't know, because this was not part of their life plan. My parents can't even make a decision about where they would like to move to because they fear that they are about to be unfairly bought out by the Government and will not receive a fair amount of money for their land, which they are entitled to. They were going to retire here and live happily ever after on the farm, while the grandkids come and go and enjoy everything the farm has to offer.

It is very disheartening to hear my Mother turn around and say that she has now given up on all of her renovation plans and that she thinks it is pointless in spending all that money and time into something that is worth nothing. She isn't even planting anymore trees around the property, which is unlike my Mum because her favourite thing to do is go outside and be in the garden.

The stress associated with the acquirement of their property has consumed both of my parents for the last few months and its very upsetting to sit back and watch. When we visit, its normally the first thing they talk to us about. When I ring them up to check on them, Dad talks to me about how upset Mum is getting. They attend meetings that they have never had to go to before.

For the Government to turn around and say that one of the reasons for their re-zoning decision is due to flooding is ludicrous. We have been here for 22 years and we have only ever experienced small flash flooding. This is a massive cop out. Get the council to fix the creek, this will stop the mini flash floods. Simple! Then all residents of Kelvin Park Drive will be zoned equally and fairly and ALL residents will receive what they are rightfully entitled to during the land acquisition stage.

My Mum and Dad are hard-working and honest Australians. They have put their heart and soul into the property, under the impression they would be here forever, and are now absolutely gutted to find out that their investment will soon be downgraded to basically "nothing", re-zoned as "non-urban land", and they will be forced from their forever home and will not receive the true value of their land in return. My Dad works 25minutes away from his work that he travels to everyday. Both Mum and Dad have driven around (20kms and more) searching for somewhere else to live, yet to no avail. They should be fairly compensated enough to establish the same lifestyle that they thought they would have forever (here in [REDACTED]) on another five acres of land, as they so deserve.

I just want my Mum and Dad to receive the land value that they are entitled to without being ripped off in the process, so that they can re-establish a new life. Be fair, they deserve to be treated as equally as the other residents of [REDACTED]

Submission 4

The farm – it was my home for 13 years, until I got married and built a home of my own – however, I honestly have never left. My Husband, my two children (5 years Emma and Ryan 2 years) and myself spend every weekend back here on the farm and we have done so for the last 8 years.

We have had many a pool parties with friends and family, some unforgettable 21st and 30th birthday parties that have gone down in the history of parties amongst friends and family, and the memories that we have made on the farm are priceless. My Mum and Dad have always said that their home 'is always open' to friends and family.

This is the farm and I was under the impression that my Mum and Dad would be living here forever.

I have spent the last few months listening to my Mum and Dad explain to me about what is happening with their land. I have watched them stress and become upset about the fact that soon they will have to uproot their entire lives and move somewhere different. Where to? We don't know, because this was not part of their life plan. My parents can't even make a decision about where they would like to move to because they fear that they are about to be unfairly bought out by the Government and will not receive a fair amount of money for their land, which they are entitled to. They were going to retire here and live happily ever after on the farm, while the grandkids come and go and enjoy everything the farm has to offer.

It is very disheartening to hear my Mother turn around and say that she has now given up on all of her renovation plans and that she thinks it is pointless in spending all that money and time into something that is worth nothing. She isn't even planting anymore trees around the property, which is unlike my Mum because her favourite thing to do is go outside and be in the garden.

The stress associated with the acquirement of their property has consumed both of my parents for the last few months and its very upsetting to sit back and watch. When we visit, its normally the first thing they talk to us about. When I ring them up to check on them, Dad talks to me about how upset Mum is getting. They attend meetings that they have never had to go to before.

For the Government to turn around and say that one of the reasons for their re-zoning decision is due to flooding is ludicrous. We have been here for 22 years and we have only ever experienced small flash flooding. This is a massive cop out. Get the council to fix the creek, this will stop the mini flash floods. Simple! Then all residents of [REDACTED] will be zoned equally and fairly and ALL residents will receive what they are rightfully entitled to during the land acquisition stage.

My Mum and Dad are hard-working and honest Australians. They have put their heart and soul into the property, under the impression they would be here forever, and are now absolutely gutted to find out that their investment will soon be downgraded to basically 'nothing', re-zoned as 'non-urban land', and they will be forced from their forever home and will not receive the true value of their land in return. My Dad works 25minutes away from his work that he travels to everyday. Both Mum and Dad have driven around (20kms and more) searching for somewhere else to live, yet to no avail. They should be fairly compensated enough to establish the same lifestyle that they thought they would have forever (here in [REDACTED] on another five acres of land, as they so deserve.

I just want my Mum and Dad to receive the land value that they are entitled to without being ripped off in the process, so that they can re-establish a new life. Be fair, they deserve to be treated as equally as the other residents of [REDACTED]
