## Re-Non. URBAN

My husband and I worked very hard to purchase our property in 1988, we gave up a lot of luxuries to get here. My husband loved the land and it was his dream. We have 2 houses on the property and 2 families reside here. I keen to the meetings about the aerotropis and have listened to the planning of our land, as Non. URBAN and been told its not worth much now. As a resident I have no idea what the government are going to do buy or leave us here, I believe we we should be informed a lot better than just receiving a map. This has torred my life into turmoil as my life is already in a depressional state with the loss of my husband let alone the worry of whats going on. I realize that progress does need to take place, but please let us no what is happening if and when. I would like to think we are going to family treated monitary wise as 2 families lives are going to change dramatically as so many changes will happen as their jobs are local, as I am retired I will be finding it very difficult to face the thought of leaving the land. My husband loved, all we want is a good price for our land so we can afford another property if we do have to move out for progress to go ahead.

Signed Yours Truly
