To whom it may concern ;

[REDACTED], council have cleaned local creeks out once in that time that I have seen. We have just learnt that all the new maps that the Government and Council have provided for our property is now at High, Medium and Low flood lines and was changed without consulting residents in 2012, unfortunately, that comes across somewhat deceiving, and for the gain for everyone , but sadly not for the land owner.

We now have been classed Non-Urban which a significant land value drop . Our area has been neglected so much that Government / Council get the rewards for our hard work .You buy our land ,then it is rezoned to your preference, you make the profit , not hard to work out .

There is aver 250 residents that this will effect and they should all be compensated at the same market value of the land in the blue/yellow zone stripe zones which will be developed into high rises and other types of developements We will be seeking legal help to ensure that the Government bodies are held accountable and treat the average Australian land owner in the Aerotropolis Core fairly and with dignity .Our property should be worth a substantial amount, due to the development that we knew was going to happen , This longstanding home that we will leave will be our Pension ,Superannuation ,a new home somewhere and compensation for stress that we have and will endure till we move out of our home of 40 years.

I would appreciate to be contacted regarding this matter to supply any further information .

Concerned Resident,
