To Whom It May Concern:

My name is Jina Wood of [REDACTED] in a flat out the back we were lucky to buy this house off my mother and law as this is my husbands family home and wanted to stay here as long as we could we have [REDACTED] and starting to ask a lot of questions about what's happening as we have been talking to here about moving my [REDACTED] is worried about were we are going to live and if she will be able to take all her out door toys with her when she moves and the only answer I could give her was I don't know as that is the truth as now more then ever our further looks unclear with all the information out there about the new western Sydney airport and the rezoning of our land and how much we will have to lose now with all the planning been put into place it has caused nothing but stress for both me and my husband instead of enjoying our time with our kids we are worried about what's going to happen with our further and its heart breaking we have worked so hard and spent so much time away from our kids so we can make the money to keep what we have and now they want to rip it from under us as if the last [REDACTED] that my husbands family and us have worked so hard to build and keep likes its worth nothing .

My kids are out door kids because we are so lucky to live were we do we spend more time outside and playing out doors then we do inside I want to be compensated for what we have worked so hard to keep so I can move on from here and buy a place like I have here.

I don't understand when there was talk about the airport going up everyone failed to mention that over 300 people would be out of pocket due to the planning of this new airport but you don't want to put all that information out to the public and let then see what this airport is doing to family's around here and yet you can put up sings and adds about what this new airport will do for people but don't worry about the peoples lives you have destroyed to get it up.

I understand that when my in laws bought this land and built the house here it was a 1in100 flood can you please advise how may people around here have claimed due to flood? And how may times over the years as I know my in laws have been here for almost [REDACTED] and have not made 1 claim due to flood I understand that we need places that have parks and water and so on but do you really need to try and make an ocean why not use the creek and make it wider and still give us a chance to sell off our land like the aerotropolis core as we all have lives and family we need too look after.

Please don't just look at us like we are nothing we matter this is our lives we are talking about and if my [REDACTED] is worried how do you think as a mother I'm feeling.

If someone can please confirm and reply with answers that are true and honest as we are all feeling like we are in the dark that would be great

Thank you Jina Wood
