Content:

The area around adams rd has got better connectivity to transport after federal govt spend together 2.5 billion on elizabeth rd and northern rd. An agricultural area in this proximity to airport will be waisting both major 4 lane roads advantages. Also a residential area near to the existing luddenham village has better community connections , than leaving the village alone without services of modern technology. It makes most economical when people lives near to their job.

Our organisation of 200+ individual family and friends has came together as a community investors for growing needs of the area. Our aim is to bring the luddenham village expand with better facilities providing housing and residential requirements while utilising the governments infrastrures around the area .

We recomend area should be clasified under residential , hotels purposes as the infastructures around WS Airport needs. The area around adams rd was not used for agricultueal purposes more than 10 years as it was not economical as lack of water and soil conditions.
