[REDACTED] Kemps Creek knowing the airport was going to be at Badgerys Creek. At no point in time was an Aerotropolis ever mentioned until now. We currently have three generations living on the property with no mortgage.. The property is very sentimental as my father worked very hard to have 5acres close to the Sydney surrounds and thought our property was our forever home. My father has since passed and my mother, myself and children live on the property. We have many memories and we do not want to leave but understand we may have to soon. My concern is how do we afford to move as we currently have 2 houses on 5 acres. Where will we find 5 acres with two houses within half an hour to Campbelltown/Liverpool/Penrith and 45 min to Sydney and as my mother is getting older close to specialist and hospitals and still live the lifestyle we have. We have had no consultation with anyone from the department and are finding this quite distressful. We need some guarantee that we will not be worse off and if our property will be acquired!!
