my name is Alejandra de maria and I am a part owner in a property at [REDACTED]

I am very disappointed with the current proposed land use of Agriculture and Agribusiness because we do not and do not plan to run a business related to agriculture. I am not aware of any agricultural businesses operating in the Bringelly boundary and I don't feel it is right or fair to group us with businesses to the north and west of us, that are RU1 and actively involved in pastoral land use, which we are not.

We do not have areas that are flood affected and have minimal noise impacts from the airport so the rationale for agriculture does not seem fair.

Our neighbours across the road are urban or residential and will benefit from planned infrastructure like water, sewerage, NBN whilst we will have none of that.

It is my opinion that my area is in a perfect location to access western and southern entrances to the airport, making it an ideal location for businesses and employment. It can combine residential with urban living and the range of services and businesses that need quick interchange with both the airport city and the airport. We are at the junction of a number of transport interchanges (Bringelly/Greendale rd; Northern Rd/Greendale/Bringelly Rd; Greendale Rd/M9 orbital and freight lines) I feel we are in the ideal area for employment and urban development.

I would like to see a change to the proposed land use for Bringelly and I would like to see flexible employment opportunities and urban development along similar lines to Northern Gateway, as we are at the Southern entry point and opposite from the city. Because of this we deserve higher priority and should be considered in parallel to the Aerotropolis Core and the Northern Gateway.
