To Whom It May Concern:

My name is phillip wood I currently live at [REDACTED] ever bringelly this has been my family home for as long as I can remember I have bought this land off my mother so that I could have my kids grow up and live life in the outdoors like how me and my brothers and sisters grew up we were lucky enough to have the back yard that other kids only dreamed of as you are well aware of all the planning going on around here.

Over the last year we have had plans coming out about what will be happening to our lively hood as we are currently in the south creek precinct this has caused not only me but my family a great amount of stress we are having to deal with day to day struggles and now over the last couple of months this rezoning has been at the top of our worries. I bought this place of my mother thinking that one day it will give me and my family a better life I hope you can understand how all of the people around kelvin park are feeling with the plans coming to light and our land been devalued by each day its causing people a lot of pain as we are all worried about what will or can happen.

We all understand this airport is going to happen and there is nothing we can do to stop that but all we are asking is we be compensated for the prime land we live on we know that we are in the 1/100 flood line but that is no reason to devalue what we have worked so hard to keep we are happy for you to buy the high flood area but at a price and then let the developers work out if this area is prime real estate.

Please all we ask is you keep our family's and what we have worked hard to keep in mind. We will all stand united and fight as long as we can until we are heard.

If someone can please take the time and respond to the many concerns we all have and just be honestly that would be greatly appreciated

Thank you
Phillip Wood
