Growing up I thought I would live in this quite yet busy area for my whole life. My name is Kristina Serafin. I may only be 19 years old but I still have a voice that needs to be heard. I have lived on [REDACTED] my whole life and I can't imagine myself or my family living in suburbia on a block. I want my parents to be compensated fairly for what our property is truly worth. As we will need to move to more acreage to live as we have 2 dogs, 7 cats, 2 ponies and birds.

My family consists of my parents, brother and grandfather. My father has been running his business for our land for over 20 years. He owns a heavy vehicle, Earth moving machines, trailers and building equipment and materials. We also have multiple boats and cars.

I understand that the government needs a certain amount of land to acquire for their "parkland" but they did not have to label most of Kemp's Creek following the South Creek as non urban as it has devalued our home as well as surrounding homes. I know that my family and I have to leave and live somewhere else but we are now in limbo basically frozen as we can NOT sell our home to move on.

Living here in Kemp's Creek I am with in a 30 minute radius of Grandparents, Great Grandparents as well as close friends and cousins. But even more upsetting part of moving is that I may never see the neighbors that I am close with ever again as I have grown up with them being an important part of my life.

I will also have to look for another job where ever we have to move to as I currently work two local jobs that I love working at and I love how the community and the wonderful people here treat me as well as others.

So please take into consideration the lives that you have rudely disrupting and the community that you are breaking.
