Content:

The structure plan shows an extensive area for agriculture and agribusiness. The area extents are too large and the area is not conducive for agriculture due to soil and climatic conditions. I suggest the plans get amended to show the Aerotropolis core area to be extended westerly all the way to the M9 to provide sufficient space for the growth anticipated in the area, from Dwyer Road all the way to Greendale Road and the proposed M9. The safety zone direct west of the airport can remain agriculture and agribusiness. My suggestion will allow better utilisation of land use adjacent on the upgraded The Northern Road and will also permit Greendale road to flourish with a better connection to the outer sydney orbital.
