The land could be used for so much more than just A&A, rezoning the land to allow the above to include mixed flexible employment and urban land, allowing for commercial and industrial development would capitalise on the investments that are being made all around the Western Sydney Airport.

It is our understanding that Avon Rd was previously earmarked to be zoned industrial. [REDACTED] would also fit in well with this proposed zoning as storage and manufacturing areas would be required as well.

I note the rezoning will be decided on by the end of 2019 (7.2 Rezoning of initial precincts pg 54 Western Sydney Aerotropolis Land Use and Infrastructure Implementation Plan). I note the A&A area is scheduled last for development. Can you advise when this might occur?

Thank you for taking the time to review our submission. We look forward to a reply to our alternate suggested land uses.
