Content:

I have lived in [REDACTED] for 46 years and have operated our [REDACTED] business from our home for 38 years in partnership with my parents [REDACTED]. If our property was to be acquisitioned due to the rezoning of our land and changing of the zoning to Non Urban we would be in life changing position due to the trouble and inconvenience of having to relocate to another area. The compensation of having to relocate would have to cover a new property moving of our workshop and equipment and sheds. The problem will be trying to find one in the metropolitan area to meet our requirements. The main problem also is the health of my parents who are in their late [REDACTED] and the stress of moving and finding a property with conditions for their age in regards to stairs and handrails. We would have to have to have enough area also for our horse breeding business and to have a property with enough land to match where we are now.
