Content:

I am one of shareholder of the land [REDACTED] This particular property is currently [REDACTED] residential and it is having two major houses and two minor houses, this land is been attached to the Luddenham village. This houses having town water and coming within the circle of new diverted NorthernRoad, old Northern Rd and Adams Rd . There is no cultivation is happening for ages. So as a common man. I don't understand the logic of considering this land as an agriculture Zoning in such a prime location and this land wasn't been cultivating even when all other areas was cultivating, So please reconsider the zoning proposal and convert this area for best use of the present and future benefit of growing community. Your favourable decisions will be highly appreciated.
Thanks
