We would like to make a submission for the Western Sydney Aerotropolis stage 1 plan. Our first and most is we believe that Badgerys Creek precinct should be part of the first stage and not in the second stage for zoning. Our area has been left in limbo for well over 45 years since the federal government purchased the land for the Western Sydney Airport in the 1980's. There are only two roads left in Badgerys Creek and they are Lawson and Martin road. Which are already surrounded with industrial purposes. We have [REDACTED] approvals and yet another going through the process with the jrpp. But also other businesses operating without any approval for many years now. Our has changed dramatically over the years from a quiet rural precinct to an industrial precinct . This are is already going through an transition stage the evidence is there. We have [REDACTED] from each other. We have these [REDACTED] here while residents are still living here and this also isn't the vision for the area. We are surrounded by the main purpose The Western Sydney Airport site and now 3 precinct in the first stage which are the Aerotropolis core/northern gateway/south Creek. We are definitely [REDACTED] and been excluded from the first stage of zoning. My family lives on [REDACTED] and our property [REDACTED] to the new airport site. This area should be developed and operating well before the airport starts operation in 2026. Such as logistics and manufacturing purposes to cater for the airport. Earthworks are set to start [REDACTED] and other properties on Lawson road in November. That will increase noise/ traffic/pollution and vibration. Also WSA&CO own numerous properties among the two roads of Badgerys Creek. My question is how and what shall these properties be used for? The state government and state planning department have the duty of care my family and also the residents of Badgerys Creek too. It doesn't make any sense why we have [REDACTED] from the vision for Badgerys Creek Aerotropolis precinct in the first place.
