To Whom It May Concern:

I am not opposed to growth of the area.

I am a resident in the Bringelly Aerotropolis proposed Agribusiness area.

We residence have been having meetings regarding the speculated rezoning and development. We have met with Council representatives and also land and development representatives. Both of whom have not given us any information and seem to not know what is happening in our area also.

However, we are constantly hearing about what is happening with our properties on media yet we whom are the people who purchased the properties and the land owners do not know what is happening.

What I am opposed to is not rezoning residence for many years and leaving us the tax payers in limbo as to our futures and property values.

If we are to be rezoned we want to be fast tracked as those in the same rezoning, and for those wanting to be bought out can be bought out and the others to do as they please.

I think as property owners it is only fair to know what is happening and have this rezoning to multi use not just agribusiness.

With confirmed rezoning titles our properties which were selling at approximately [REDACTED] for [REDACTED] now can not be sold due to the uncertain nature of what the rezoning will be.

We have a right to know and be involved in the future of our properties.

Regards [REDACTED]
