Dear Director,

I am writing on behalf of [REDACTED] who owns her home & land that has been affected by the South Creek Precinct as a resident whose home will be zoned "non-urban" due to flooding.

[REDACTED] has owned her land since [REDACTED]. When she purchased it then in the contract it was said the land was only at risk of flooding 1 in 100 years. In these [REDACTED] years not once has it flooded. So we do not quite understand how the land can be classed as "non-urban".

This is disappointing & stressful to the family as we know the zoning of "non-urban" will devalue our land.

We accept that a 2nd airport is necessary & land will be acquired but we want to be treated fairly & have the right thing done by us. We want to be compensated at the same market value as all those around us who have been zoned as "urban".

Thank you,

[REDACTED]
