I am writing to you regards the Bringelly Aerotropolis and the proposed zoning Non-Urban in 2019. I am a resident that lives on Ramsay Rd, Kemps Creek that they are proposing to make non urban. I have owned my property for over 30 years now. After becoming a widow with two young children, financial hardship, and selling my business and primary home just so I can keep my property at Kemps Creek it is a HUGE disappointment that these restrictive E zoning/non urban zoning will be placed on my property.

I would like to know the basis of an environmental report that is not available for anyone to see or a flood plan that was changed in 2012 without residents knowing as no changes to the landscape has occurred to justify these actions. I have had my land for over 30 years and not once has it flooded.

Land in the proposed South Creek precincts as we know, some of these are 1 in 100 flood prone per Liverpool councils flood plain maps. If this affected land is required to rejuvenate at the existing South Creek and to add recreational areas then this land should be purchased from residents for this development to take place.

We insist that land sitting in medium and low flood plains should be re-zoned as per The Aerotropolis Core zonings and allow residents to develop lands in the this area, however if extra land is required by Government bodies for recreational or parklands, south creek rejuvenation, cycle ways etc. these lands must be purchased by these bodies at the same value of the Aerotropolis Core zoning.

We all accept that a 2nd airport is necessary and land will be acquired but the government bodies need to be accountable and do the right thing by residents.
