Letter of Objection Stage 1 Land use and Infrastructure Implementation Plan "â€"

As I am living overseas at the moment, although I have always had full intention of returning home [REDACTED]
[REDACTED] The news of the re-zoning and the speed in which it is happening has taken me by surprise. While it is deeply upsetting to know the family home in which I grew up needs to be sold for future development.

However this is causing my parents undue stress and anxiety, as you have classified my parent's property as Non "Urban in the south creek precinct, which has devalued their property dramatically. This is extremely difficult for me to watch when I am on the other side of the world knowing my father has already had a triple heart bypass and concerned what affects it is having on his health and due to the uncertainty of boundary lines, also is causing conflict between my parents which is unsettling.

As my parents did Not purchase As min 1-100 flood zone when buying in [REDACTED]
I find it concerning and disturbing as I cannot understand why if you need why you have included [REDACTED]
in the south creek precinct. I am sure that residents would not oppose you taking their 1in100 flood section. AS I understand legally you cannot change boundaries as you have in my parents instance in [REDACTED]
imagine neighbours deciding they wanted to move boundaries what chaos! So why can government have this power to disrupt and make unfair attainment of properties in the [REDACTED] leaving families financially and emotionally in despair. While government and developers make huge financial gain by manipulating land owners who have built homes and raised families and made solid friendships.

This proposal which does not align with the existing flood planning controls under Liverpool LEP which shows 1.7% is impacted by the Flood Planning Area.

The flood line is [REDACTED] and [REDACTED]. However it has been included in the South Creek Precincts with flood line boundaries changed and green space zoning. The only property that has been singled out while neighbouring properties such as either side and behind have not been affected. How are these unjust decisions made?? How are these irrational decisions made as we have never been flooded or evacuated in 30? Or EVER for that matter.

This has caused stress for myself, although it is difficult to watch my parent's anxiety levels fluctuate due to the uncertainty caused by the re- zoning.

I strongly believe for the residents [REDACTED] to relocate you need to compensate us fairly and equally so we can move within this city without interrupting our lifestyle.

Thanking you in advance and looking forward to hearing from you.

Regards
[REDACTED]
