To whom it may Concern,

My Name is [REDACTED] and I am a resident from [REDACTED]

Which has been overwhelmingly taken over by the future plans of a South Creek precinct.

We purchased our property [REDACTED] knowing that we had a small amount of 1 in 100 land.

In the [REDACTED] that we have lived here we have only ever had a small amount of water at the back of our property in excessive rainfall.

This is also due to the lack of maintenance and lack of care that our Council have not provided.

We understand the airport is coming and have no objection but what we do object to is that the government had no consideration when making the South Creek Greenspine, we are currently zoned

RU4 and with development in this area we could of been approached by developers as we expected when we purchased this land for our pensions and Super but now to be left devalued is stressing and unfair.

I have [REDACTED] which reside on this property and we have enjoyed our lifestyle + wish to remain but yet again we understand that one day we would have to move, we need to know that the Government will be fair with their rezoning and buy our land fairly and equally and that no-one in this whole development will be treated differently. If the government needs green space land, we must be compensated at the same market value as the residents in the Aerotropolis Core.

As I look at these maps, I also believe that the South Spine looks like what is going to make this

Development prestige so I do not understand
the de-valuing.

As the planners, we would hope that you
could ensure that the process is
transparent and fair for all local affected
residents.

I would appreciate that the government
does the right thing so that we can
relocate in peace and harmony.

Thank you.
