To Whom It May Concern

My name is [redacted] and I am a resident
from [redacted] which have
been overwhelmingly taken over by the future plans
of a South Creek precinct. We purchased ~~our~~ our
property in ~~2002~~ knowing that we had a small
amount of
In the [redacted] that we have lived here we
have only ever had a small amount of water
at the back of our property. In excessive rainfall
this is also due to the lack of maintenance
and lack of care that our Council have not provided.
We understand the airport is coming and have no
objection but what we do object to is that the
government had no consideration when making the
South Creek Greenzone. We are currently zoned
R2A and with development in this area we could
of been approached by developer as we expected when
we purchased this land for our pensions & super
but now to be left devalued to spreading and unfair.
I have [redacted] which reside on
this property and we have enjoyed our lifestyle &
which to remain but yet again we understand that
one day we would have to move. We need to know that
the government will be fair with the rezoning and buy
our land fairly equally and that no one in this whole

development will be treated differently.

If the government needs green space land, we must be compensated at the same market value as the residents in the Aerotropolis Core.

As I look ~~at~~ these maps, I also believe that the South spine looks like what is going to make this development preisting so I do not understand the devaluing. As the planners, we would hope that you could ensure that the process is ~~is~~ transparent and fair for all local affected residents.

I would appreciate that the government does the right thing so that we can relocate in peace and harmony.

Thank you!
