Aerotropolis Activation
Department of Planning
GPO Box 39
Sydney NSW 2001

Dear Sir/Madam

We [REDACTED] do not understand how our property can be classed non-urban. Our next door neighbour to the east side of my property is zoned as urban land. Between myself and neighbour to the west side of me is an unformed road which is part of [REDACTED]

My wife and myself purchased the property in [REDACTED]. We brought the property in the hope of raising a large family and having the opportunity to give our children a laid back farm life breeding all sorts of animals, growing vegetables and teaching our daughter that hard work eventually pays off. [REDACTED]

...2.1.11...12.018

My family and friends say how lucky we are, They don't fully understand the stress, Depression, Anxiety we both suffered to acquire what we have today. It was extremely hard for us both.

The 1 in 100 chance of flooding is ridiculous in the 31 years we have lived here, our property has never been affected by flood water. We have had numerous down pours and storms in that [redacted] years and maintain that we have not been flooded.

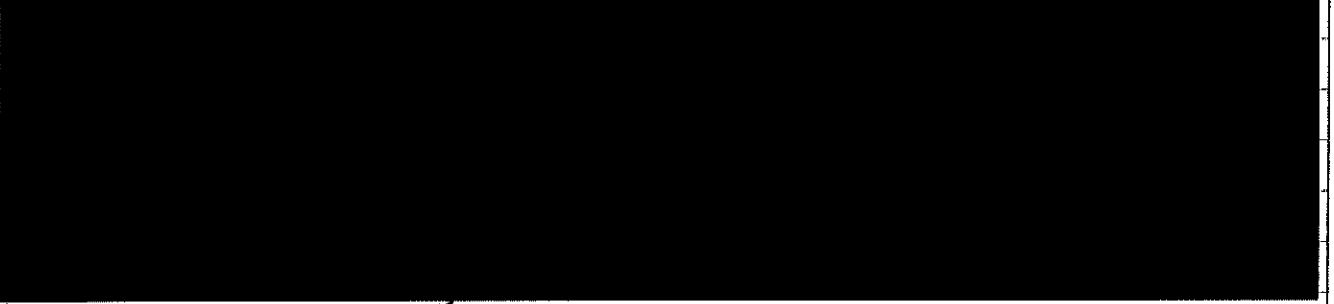

We just want the government to take into consideration that the zoning does not only affect us, It affects the whole community generations upon generations have raised their children here in an environment so many people only dream of. The amount of children that went to the same schools our daughter went to. A lot of the friends she has made over the years, have no idea of the responsibility of owning a pet, something which you want your kids taught at a young age, what a cow, horse, goat eats etc - fresh farm eggs straight from your own chickens. These are all things we would like to share with our grandchildren.

The friends we have made over the years. The people at the shops know us on a first name basis. It's a completely different lifestyle to living in the suburbs.

With the zoning of our land affecting our future, our daughters, grandchildren.

21.11.2018

We can't consider the possibility of building another dwelling as our future is uncertain. I want my wife, my daughter to have security when the unfortunate comes along.

I just think it's so unfair that I have to stress over my property being devalued because of the zoning. The drop in the property market is enough to stress over without the added stress of an un-secure future like so many other residents living in the precinct.

If the government does acquire mine and my neighbours land, I do hope we are offered a fair zoning so we can sell eventually at a good price to secure our futures, or you can acquire it at a price comparable to the properties in the flexible employment areas.

Thank you and hoping that you will take into account the above, ~~the~~ residents that live in the affected areas, in the south creek precinct. Your consideration in this matter would be greatly appreciated.

Yours Sincerely
