

[REDACTED]

We live on [REDACTED] acres in [REDACTED] and lived here since the 80's and loved every minute & still love this lifestyle and I am aware of what's happening in the area and don't oppose the airport as I am actually excited that the airport will be so close but have been told that we will need to leave this lifestyle, as I do have [REDACTED] of the acres are in the 1 in 100 flood which I don't understand that you don't acquire this as I would be happy for this to be a park but my 5 acres that is fantastic land, leave it for me to sell so I can still live this lifestyle down the road.

On your next maps which will be released can you please remove the word NON-URBAN

as this has devalued our street extremely.

Also on the next map can you clearly place zones in place so we can know

where our lives stand

Bring the flood lines back to 1 in 100 flood

Please Be more specific in the next stage as this has turned peoples lives upside down.

I heard the other night that names will be published but I would prefer to stay anonymous.

Thankyou for your time and I will be waiting patiently for the next exhibition map.
