I am not well and just don't have the energy to read the plan but I do want to say: WE HAVE ALREADY 'BALANCED' PEOPLE AND CONSERVATION! We have decimated over 90% of this area in our greed. The housing we have built is unsustainable and takes up far too much land. A few people have become richer from this but the many have not benefited. We need to stop the destruction NOW. We need to start massive planting of corridors to link the remnant pieces. We need to stop building roads and rail that block these linkages. We need to STOP using OFFSETS - the evil of this idea will go down in history and those responsible will be talked about for a long time in the negative. And we need to stop the destruction being caused by the new airport. Perhaps if all the money spent on this poor implementation was spent on encouraging people to have less babies, lowering immigration and building sustainable shelters we would have a balance between conservation and people but if growth continues (population and economic) there's not much point to this plan because the destruction will role on, the greed will role on and humans as a species will just implode.
