Content:

I'm opposed to more urban sprawl and loss of biodiversity in western Sydney. The public has had enough of growth at any cost. If the Premier is serious about addressing population growth into NSW then these plans should be shelved. And we were told that Badgerys Ck Airport would not impact on residential areas yet this Penrith to Eastern Creek Urban Release Investigation Area adjoins the proposed airport site. What a con job on the people of western Sydney. Will climate change be addressed in this plan? How is this plan going to cool western Sydney?

Public reserves must not to be offsets for developers: The Terms of Reference (Section 3.1.5) do not include public bushland reserves in their definition of already-protected bushland. This will allow developers to use the public reserves we fought and paid for as their environmental offsets. Section 3.1.5 must be amended to include 'public bushland reserves' in the definition of lands already protected.
